

# Broken Glass Disposal

## 1. Purpose

---

To provide step by step guidance on how to handle broken glass.

## 2. Scope

---

You are an authorized user of DB440 and are either included in your PI's permit, or you possess a CL2 permit for DB440.

## 3. Responsibilities

---

It is the responsibility of all faculty, staff and students to follow the procedures described in this SOP.

## 4. Personal Protection Equipment (PPE)

---

## 5. Procedure

---

### Broken Glass

- 1) Wear PPE as described above. Use a brush and dust pan (in Spill kit) or tongs, etc. to pick up broken glass pieces.
  - a. **DO NOT** pick up broken glass with your hands.
- 2) Dispose chemically contaminated broken glass in the chemical waste pail. Dispose biologically contaminated broken glass in the Bio waste pail as per the ["Biohazard Waste Disposal" SOP](#).
- 3) Remove and discard your gloves. Wash your hands with soap and water.
